Our American Family

from 1900
to 1950

The Bolducs

Our American Family inspires each of us to capture our own families' voices of wisdom before they are gone. These documentaries, telling the stories of everyday families from the first half of the 1900's, create a tapestry that demonstrates the universal hope embodied in the American dream.

To sustain their farm and dairy delivery in Gilford, NH, Charles and Aurora Bolduc taught their 13 growing children the values of hard work and helping others. Also owners of the world's longest continuously operating maple syrup operation, they carry on a centuries-old tradition of perseverance required to distill 30 gallons of sap into a single gallon of syrup.

*Before those voices
are gone*
